# GPCME App Sponsorship

The GPCME Whova event app provides a premium branding opportunity for the official app sponsor at the GPCME conference.

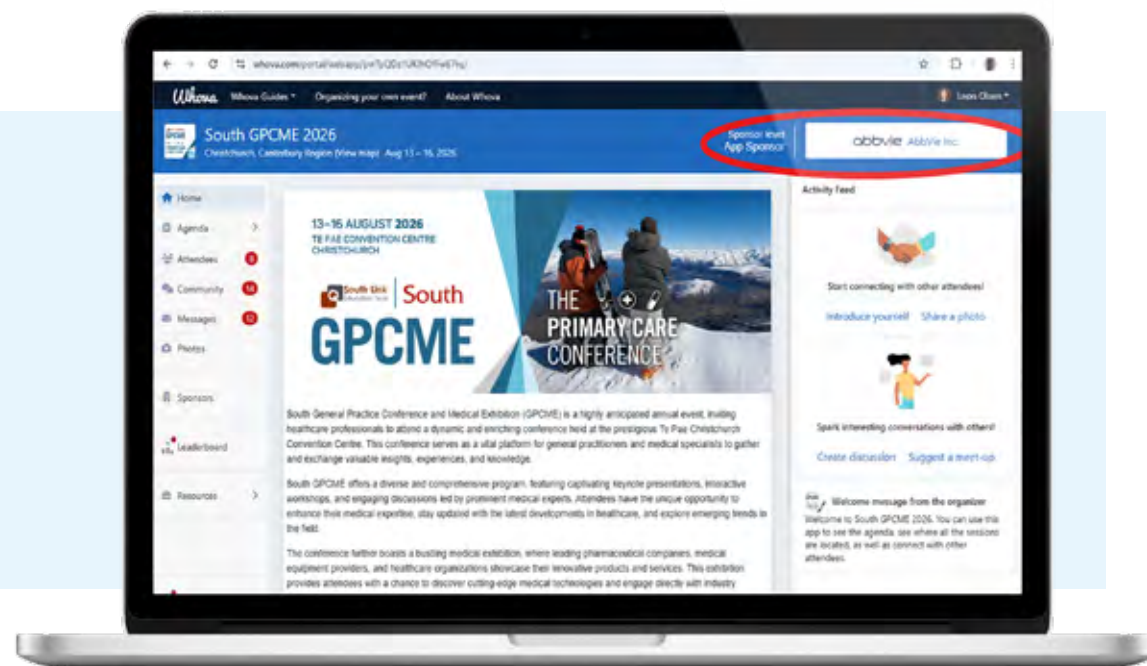

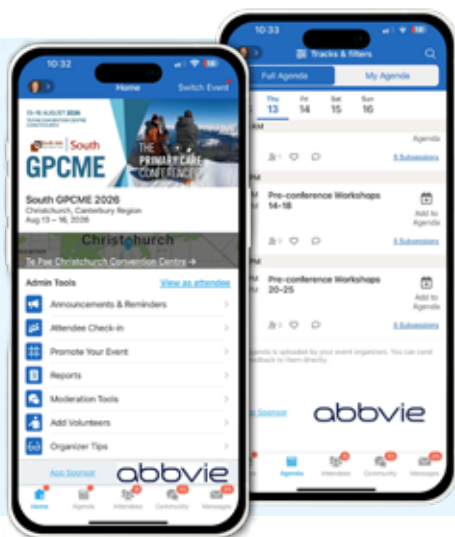

As the exclusive sponsor, the company receives prominent brand exposure across key digital touchpoints throughout the delegate experience. This includes featured logo placement on the app's homepage, high-visibility presence within core navigation areas, and a dedicated branded section within the app outlining the sponsor's offering and connection to the event.

In addition to priority brand placement, the app sponsor receives enhanced exposure within programme and content areas, ensuring consistent visibility as attendees access schedules, session details and speaker profiles. Integrated branding, dedicated promotional space, and ongoing recognition within the digital environment ensure the sponsor remains front-of-mind, strengthening awareness and engagement before, during, and after the conference.

## Custom Stand Design Guidelines

To maintain a visually balanced exhibition arena and ensure every exhibitor has a fair and equitable presence, the following stand design rules must be adhered to:

### 1. Standard Wall Heights

The standard wall height is 2.3m. This applies to all stand walls unless an exemption is granted under the conditions below.

### 2. Increased Wall Heights on Footprint Edge

Walls up to a maximum height of 3.5m are permitted on the footprint edge, provided they are no wider than 3.0m. These taller elements should be positioned to avoid obstructing sightlines or overshadowing neighbouring stands.

### 3. Taller or Wider Walls

Any wall or structure that is higher than 3.5m or wider than 3.0m must be set back at least 1.0m from the stand's perimeter (footprint edge). This setback helps preserve open sightlines and ensures no single stand dominates the visual field.

### 4. Hanging Banners and Overhead Elements

The bottom of any hanging banner must be positioned at least 1.0m above the highest solid wall or structure within the stand. For example, if your tallest wall is 3.5m, the lowest part of your banner must be no lower than 4.5m above ground level.

### 5. General Considerations

Stand designs should respect neighbouring exhibitors and maintain openness and visibility. Avoid blocking primary walkways or entrances to adjacent stands.

All custom stand designs must be submitted in advance for approval by the event organisers

## Custom Stands

Sponsors installing custom designed stands must provide the contact details of their appointed stand contractor, a plan showing full design dimensions and a graphic of the stand design. All custom stand designs must be submitted in advance for approval by the event organisers

## PRODUCT LISTING/CATEGORY

We will produce a product/service category listing to help delegates find products/health conditions and services. This will be cross-referenced with the exhibition stands. If you attended last year's meeting you will be automatically listed under the same categories (see the Sponsorship/Exhibition Form on page 20) for the category options.

If you did not attend last year (or did not list your preference), please indicate which categories you would like to be listed under on the exhibition form.

## PRIZES

We will list any prizes/competitions/giveaways you are offering from your stand. We include these details in the conference proceedings and on the main information board to give delegates a heads up on what is happening around the exhibition area. This will also help as a conversation starter and may reduce the need for repetition re introducing the prize/competition when delegates arrive at your stand.

We can notify winners of your competition onsite, prior to the final catering session on Sun 16 August, and encourage them to visit your stand to collect their prize prior to leaving the conference. We can only do this for exhibitors who advise us what competition they are running.

You will need to advise the winner of your competition to us at the conference registration desk by 5pm on Sat 15 August.

Deadline for receiving your prize/competition details is 26 June 2026.

## PARKING

There is no carpark located at Te Pae Christchurch. There are however [secure car parks](#) located in close proximity to the centre.

## DELEGATE FLOW CONFERENCE COMPETITION

Attendees can access the Passport Contest through the home page of the app. From here, they will be able to collect stamps by visiting your booth and getting their QR Code scanned.

Please ensure you have at least one person on the stand who has downloaded the app to scan attendees who want to enter the competition.

Delegates will need to obtain a "stamp" from all exhibitors to enter the draw for a \$2,000 travel voucher.

## TRESTLE TABLE AND CHAIRS

We can arrange a trestle table, black table cloth and chairs for you via the venue on a request basis.

The trestle tables 240 cm long x 450 cm wide and 76 cm high.
